

DEMOCRATS ARE NOT PLEDGED TO TREATY PROGRAM

Individual Conferences of Senators Are Being Held.

HOPE FOR RESERVATIONS WHICH WILL WIN SUPPORT

Early Agreement Is Not In Sight Republicans Say.

Washington, Jan. 12.—Another week of individual conferences between senators in an effort to break the deadlock on the peace treaty opened today with leaders of several groups—hopeful that some definite headway would be made within a few days.

Democratic leaders said Democratic senators were not yet "pledged" to support any definite program of compromise reservations. Senator Hitchcock, the administration leader, is hopeful, however, that a set of compromise reservations will be evolved soon which will secure general Democratic approval and also be acceptable to President Wilson and to enough Republicans to insure ratification.

Democratic senators who attended a conference last night at the home of Senator Owen, Democrat, Oklahoma at which compromise suggestions were considered, said a number of points still were unsettled and that the conference would be continued. They said the conference was in harmony with the president's view on accepting reservations which were interpretative but not destructive.

Senator Lodge, the Republican leader expects this week to confer with many senators, including leaders of the "mild reservation" Republican group and Democratic leaders. So far, however, according to the Republican leaders, the negotiations for a compromise have not reached a stage promising an early agreement.

The President's call will be brief and will be directed to the ambassadors of the various entente powers so they may notify their governments. The council will meet at 10:30 a. m. Paris time.

A number of Democratic senators received telegrams today from William J. Bryan urging ratification of the treaty, so the United States could enter the League of Nations by the time the League Council holds its first meeting next Friday. The telegram follows:

"I earnestly hope that it may be possible to secure an agreement on the reservation and resolution of ratification before the next Friday so that our nation can enter the League of Nations at its first session on January 16. The joy of the American people would, I am sure, be as universal as it was when the armistice was signed."

PASS JUDGMENT ON REDS TAKEN IN MIDDLE WEST

C. H. Paul, above, and W. C. De Miller.

The two men above, C. H. Paul and W. C. De Miller, immigration inspectors for Illinois and Indiana respectively, have been detailed to receive and examine Reds taken in raids in the middle west. They are sitting as special judges in Indianapolis, deciding which of the prisoners shall be sent east for deportation and which shall be held for trial.

COMMITTEE TO URGE ECONOMY PLAN FOR STATE

Legislature Will Be Asked To Abolish or Consolidate Jobs.

SOLONS WILL MEET FOR FINAL SESSION TODAY

Grange Master Taken To Urge Passage of Income Tax Law.

Columbus, Jan. 12.—Abolition of many positions and consolidations of others in the interest of economy will be recommended by the joint legislative committee which has been considering increases in salaries for state employees, members of the committee said today.

The committee today was preparing its recommendations for presentation to the general assembly. Its report is expected to be made late this week. Both houses of the legislature were to reconvene at 5 o'clock this afternoon following the holiday recess.

Members were returning for what was expected to be the final session.

Republican leaders were expected to confer today on the taxation question and decide upon the form of income tax bill they will recommend. A number are said to oppose any income tax law.

L. J. Taber, master of the state grange, was here today to urge upon the legislature passage of an income tax law and to prevent any change in the present limitations of the Smith one per cent law.

Wet and dry forces in the assembly are preparing for the debate in the house Wednesday on the Crabbe prohibition enforcement bill.

The legislative committee of the Ohio State Association will urge passage this week of a school relief bill introduced before the last adjournment. The recommendation of the State Teachers association that interest and sinking fund charges be removed from the interior of the Smith law will meet with opposition of rural forces in the assembly, it was said.

COAL MINERS WILL ACCEPT DECISION OF COAL BOARD

Lewis Says Findings Will Be Accepted Without Reserve.

OPERATORS ASK IF AWARDS ARE TO BE BINDING

Questions Submitted Will Be Answered By Commission.

Washington, Jan. 12.—Bittuminous coal miners will accept unreservedly any decision made by the president's coal commission in settlement of the coal strike, John L. Lewis, acting president of the United Mine Workers of America, declared at the opening today of the first public hearing of the commission. Mr. Lewis added that the miners' representatives would assist the commission inquiry.

Mr. Lewis' assurance was given in answer to a question by Chairman Henry N. Robinson.

Thomas T. Brewster, chairman of the scale commission, said he was in the central competitive field replying to the same question by the chairman, said he could make no promises for the operators until the commission had given answers to 10 questions propounded by the operators.

Chairman Robinson said the commission would take up the questions and furnish a statement to the operators. The commission then adjourned until tomorrow.

Among the operators' questions were whether the commission's award would be final and binding on both miners and operators; whether the award would act upon matters relating to the future of the industry; whether either side, as to its authority to fix wages up or down; whether it would actively interfere in fixing prices to sustain its decisions it would consider that the prices so made would not hold after the expiration of the Lever food and fuel act.

Mr. Brewster said the questions were submitted "to clarify the situation."

"If the answers by the commission were not satisfactory the operators might insist that they be unwilling to abide by the findings finally made," asked the chairman.

"We'll stand by the decision on our part. We submit to arbitration," Mr. Brewster retorted.

"I understand then that you will only accept this decision so far as it decides matters you submit?" continued the chairman.

"I wouldn't like to answer that without a conference with some of my associates here," Mr. Brewster said.

"Isn't it wise to accept President Wilson's letter of instruction to the commission under the settlement to workers and assume that the federal government as good a piece of work as they can't ask Mr. Robinson.

"The answer that," Brewster replied, "will take the whole list of questions under consideration and make a statement later," Mr. Robinson said.

OHIO POWER CO. LOSS HERE MAY REACH \$40,000

Damage to Cables Amounts to \$10,000 and Transformer For High Tension Line May Be Ruined.

The fire at the plant of the Ohio Power company in East street Saturday morning may cost \$40,000. The loss in the burning of the cables was estimated at \$10,000 and if the big high tension transformer is ruined it will mean an additional loss of \$30,000. That how- ever cannot be determined until later as the men are busy making repairs by stringing temporary cables. It will require at least two months to put the plant back in first class condition.

Service is supplied to all towns and cities in which the Ohio Power operates at 3:30 o'clock Saturday afternoon. The various industries of the city using electric current are now able to operate after being inconvenienced for only a few hours. The company's men worked up until 3 o'clock this morning before retiring for a few hours sleep.

CHICAGO POLICE HOLD 600 ALLEGED CRIMINALS

Chicago, Jan. 12.—More than 600 alleged criminals, police characters and vagabonds today were in jail and crime in Chicago temporarily has been nullified by the police department's two night raid. Approximately 25 per cent of those arrested are identified as "men with records," the police said.

For the first time in many weeks not a hold-up was reported from noon Sunday until midnight and only five automobiles were stolen. The average had been above 25 street robberies and from 10 to 45 motor cars stolen.

The police, dressed in civilian clothes today continued the work of gathering up suspects and it was announced the wholesale arrests would continue indefinitely.

Two suspects were killed while resisting arrest and two others were wounded. On the whole, the resistance was afforded, however, to the police raiders of saloons, hotels, gambling houses, cabarets and pool rooms.

OKLAHOMA EPIDEMIC PUZZLES PHYSICIANS

Oklahoma City, Okla., Jan. 12.—Physicians, the state chemist's office and officials generally were puzzled today over the cause of a mysterious malady that suddenly became epidemic at Skiatook, a town of 2000 persons in Tulsa county.

Three women and two men died from the effects of the disease and more than 500 are ill, although reports today were that the number of ill had decreased to from 30 to 50 persons.

Preliminary analysis of the water supply at Skiatook showed it unfit to drink and that it was contaminated by a chemical. W. A. Walters, state chemist, said the kidnapers acted under orders of Yang Tien Fu, a notorious outlaw, who has been operating with 5,000 followers in the Kachin mountains. It is said the object of his lawless acts has been to discredit the local governor for refusing to accept the terms of surrender laid down by the band.

The brigades stated they would treat their prisoner as a guest unless the military was employed to effect his release. Yang Tien Fu is reported to have been educated as a military officer in Japan.

Officials of the American legation here and Chinese authorities are investigating the case.

A message from Cincinnati Sunday night gave the first information of the capture of Dr. Shelton. It was announced there that the Foreign Christian Missionary Society, a Disciple's church organization for which Dr. Shelton had for 20 years been a missionary in China and Tibet, had been informed by the state department of the capture, the department adding that it had demanded immediate action.

Dr. Shelton, who formerly resided at Anthony, Kansas, was stationed at Kiating, province of Szechuan, near the Tibetan border.

REQUEST FOR FOOD RELIEF BEFORE HOUSE

Washington, Jan. 12.—A request by Secretary of the Treasury Glass that congress grant authority for an additional credit loan for European food relief amounting to \$150,000,000 today was before the house ways and means committee.

Before taking action the committee arranged to discuss with Herbert Hoover the general food situation abroad.

The money sought would be used for relief chiefly in Austria and Poland where many thousands of persons are reported to be facing death from starvation.

SHIP IS BOOTLEGGING

Mohile, Ala. Jan. 12.—The United States shipping board steamer Lake Linden, 124 tons, was held by local authorities today and Captain William H. Goldsborough and 13 members of his crew arrested by Sheriff Holcombe on charges of violating the prohibition law. Whiskey valued at \$20,000 and a saw boat in which 20 cases of liquor were discovered, were held as evidence. The Lake Linden operated between this port and Havana, Cuba.

WANT ROOSEVELT DAY

New York, Jan. 12.—A resolution urging that January 6, anniversary of the death of Colonel Theodore Roosevelt, be observed nationally for emphasizing the need of forest conservation will be introduced here tomorrow at the annual meeting of the American Forestry association.

HOME OF MEXICAN PROFESSOR DROPS INTO FISSURE OPENED BY EARTHQUAKE

Mexico City, Jan. 12.—Unique in the annals of the earthquake is the experience of the family of Professor Francisco Riveros of Barranca Nigua. The quake opened a great chasm in the earth in which their home was engulfed. For more than a week members of the family have been living in the bottom of this abyss at least 140 feet below the surface of the earth.

Surviving neighbors have been lowering them food and water at the imminent risk of dislodging rocks which might fall and crush those beneath. Belief is expressed that rain or new shocks will mean the deaths of those imprisoned in the abyss.

Reports from the San Miguel district indicate the eruption of the new crater which opened there as a result of the earthquake on the night of January 3, is decreasing in violence.

A telegram from the mayor of Chalchicomula, state of Puebla, however, states that shocks have been numerous there since the first earthquake and that he has received information that the towns of Saltillo, Lafragua and Chicla nearby have been destroyed.

Investigators report that in Jalapa 50 persons were killed and 200 injured by the earthquake.

COURT DENIES PLEA TO TEST DRY AMENDMENT

Decision Holds That High Court Has No Jurisdiction In Case—Must Get State's Consent.

Washington, Jan. 12.—The supreme court today denied permission for the New Jersey Retail Liquor Dealers association to bring original proceedings in the supreme court to test the constitutionality of the national prohibition amendment and enjoin its enforcement in New Jersey. The court held it had no jurisdiction.

In seeking to bring the original proceedings, the association alleges that the prohibition amendment interfered with the state police powers, and was a violation of the fifth amendment prohibiting the taking of private property without just compensation. Chief Justice White in disposing of the motion, however, ignored these contentions and devoted itself entirely to the question of jurisdiction.

He said the court held that no right existed by which a citizen of a state could sue that state without its consent. In this instance the state of New Jersey denied that permission.

MAY ISSUE LEAGUE CALL LATE MONDAY

Washington, Jan. 12.—The formal call for the first meeting of the League of Nations council which is to be held at Paris Friday, will be issued by President Wilson, probably today, it was announced at the state department.

MORAN—FULTON BOUT

Newark, Jan. 12.—Frank Moran will have an opportunity tonight in an eight round bout with Fred Fulton to even up the knockout Fulton scored over him in New Orleans in 1917.

THREE STEALS SOMBRERO FROM ARIZONA GOVERNOR

Phoenix, Ariz. Jan. 12.—Governor Thomas E. Campbell's best sombrero was the only lost robbery who entered his home obtained last night. They passed on the family plate and overlooked several valuable pieces of jewelry. Governor Campbell is enroute to Washington and other members of the family were away from home.

BERLIN ASKS RAIL MEN TO RUN TRAINS

Berlin, Jan. 12.—The government has issued a manifesto urgently calling upon the striking railway men to resume work immediately, pointing out, among other things, the consequences of the strike on 400,000 war prisoners whom your action on the threshold of the home and the right to strike have been suspended by order of the president in districts where the railway strike is in progress.

QUARREL OVER WHISKEY RESULTS IN MURDER

Youngstown, Jan. 12.—Antonio Bernacci, 39 West Lakeside avenue, teller in a foreign bank here was shot and killed Sunday night at a place in Logan road where he had been taken by three men to purchase some whiskey. Fear of the whiskey was spurious, Bernacci refused to pay and wanted to take some of the liquor for a test. An argument resulted during which Bernacci was shot and killed. The other men escaped but are said to be known to the police.

James Nicklinick, alias James Aslerin, was shot and killed by a man alleged to be Justin Stepanovich at the corner of Ardale and West Bayan avenue about midnight. The men had an old grudge over card games, both being reputed gamblers. The murderer escaped.

COURT HEARS PLEAS ON DRY AMENDMENT

Washington, Jan. 12.—Arguments on the motion of the state of Rhode Island for permission to institute original proceedings to test the constitutionality of the federal prohibition amendment and enjoin its enforcement in that state were heard today by the supreme court. Attorney General Herbert A. Rice, of Rhode Island, attacked the manner in which the amendment was ratified and contended that it was revolutionary and invalid. Solicitor General King argued that the supreme court was without jurisdiction.

WILL ACT ON SUFFRAGE

Salem, Oregon, Jan. 12.—Action upon the federal suffrage amendment is the chief purpose of the special session of the Oregon legislature which assembled today at the call of Governor Ben W. Olcott.

WILSON CONFERS WITH SEC. GLASS

Talks Over Appointment of Successor to Glass When Latter Assumes Seat in Senate.

Washington, Jan. 12.—President Wilson today summoned Secretary Glass to the White House for a conference at which it was understood a successor to Mr. Glass was to be discussed. An appointment is expected soon, so Mr. Glass can take his seat in the senate, to which he was appointed to succeed the late Senator Martin, of Virginia.

Mr. Glass is known to favor the selection of Assistant Secretary Leffingwell to succeed him and other administration officials have urged Mr. Leffingwell's appointment.

U. S. TROOPS IN SIBERIA RETURN NEXT FEBRUARY

Railway Commission Headed by John F. Stevens Will Return Ahead of Troops It Is Reported.

Washington, Jan. 12.—The 8,000 American troops in Siberia will begin their homeward movement soon after the middle of February, leaving Japan the protection of the Siberian railroad and the loyal Russians in eastern Siberia.

The American railway commission, which has been directing the operation of the Siberian railway will come out before that time, it was learned today, and as the Czechoslovak troops will be trying to reach the Vladivostok and it was in accordance with an agreement reached with Japan and the entente powers.

Japan had not cancelled that agreement so far as the American troops are concerned. It is not known here what Japan's policy will be now that she will be obliged to face alone the problem of checking progress of the eastward flood of Bolshevism, but it has been suggested that she might immediately avail herself of that provision of the League of Nations covenant which permits any party to call for the assistance or advice of other nations in meeting any menacing condition such as the Bolshevik movement which Japan regards as threatening her.

PRINCE GOES TO AUSTRALIA

London, Jan. 12.—The Prince of Wales will probably leave England for Australia about the middle of March on board the battleship Renown. It is believed he will go by way of the Panama Canal.

STECHER AND CADDOCK WILL MEET JANUARY 30

New York, Jan. 12.—Earl Caddock of Iowa world wrestling champion, and Joe Stecher of Dodge, Neb., claimant of the title will meet at Madison Square Garden Jan. 30. It was announced last night. Caddock, in his message of acceptance, made it conditional that Stecher should not be advertised as the title holder.

LONDON REGRETS U. S. DIDN'T RATIFY TREATY

London, Jan. 12.—Regret that the United States did not ratify the Versailles treaty of peace is expressed by today's newspapers. Some editorials strike a doubtful note.

The omission of America's signature to the ratifying document is regarded as the omission of the hope that glowing promise for humanity a year ago. It is the League of Nations exists by the terms of the treaty and the United States adheres to the league and participates in its actions not a tithe of the usefulness and moral authority it should possess will be lost to it.

Doubts of the reality of peace behind the formal act of ratification are expressed by the Daily News.

"There is not a nation which cannot, if it wishes, manufacture new grievances out of the settlement to workers the peace of the world. Occasional offense are so numerous they obscure the very fact of peace."

REFORM SOCIETIES MEET IN CAPITAL

Washington, Jan. 12.—In double celebration of the approaching birth of America's first saloonless year and the quarter century anniversary of the international temperance bureau, the annual convention of various national reform societies, which was inaugurated yesterday by special "requisites" over the body of John Barleycorn today formally convened in session.

Advocacy of world prohibition by a powerful campaign of propaganda, it is expected will be pressed by leading reformers before the convention. Formation of a program of future reform, including revision of existing laws, censorship of motion pictures and suppression of the interstate transmission of horse racing odds also was announced.

ITALIAN VILLAGE IS BURIED UNDER SLIDE

Berlin, Sunday, Jan. 11.—Porrubbio, a village in the Italian Alps, has been buried by an avalanche and many persons are reported to have been killed. Five children of Joseph Walter were killed at midnight in their home, which was buried by an avalanche near the river in the Werthberg mountains. The remainder of the family, although injured was rescued by the army. Heavy snowstorms in the Alps have blocked railroads and highways, many villages being isolated.

GERMANS PLAN TO SINK OTHER SHIPS

Copenhagen, Jan. 12.—A plan to scuttle the German war ships not yet turned over to the allies is being considered by officers of the German navy, according to information received by the majority Socialist party leaders. A Berlin message quotes "the Freiheit" as declaring that a high German officer had so informed the leaders.

COMMUNITY NURSE SERVICE IS PLANNED BY RED CROSS CHAPTER

Membership Enrollment Drive Opens This Morning and Funds Will Be Used Largely For Local Purposes—Committees Are Named.

The annual membership drive of the Licking county chapter of the Red Cross opened today with Newark women in the downtown stores and at the post office taking memberships.

The drive takes the place of the regular Christmas enrollment of previous years but which was delayed this year. In the past two years the war chest has taken care of the membership enrollment, funds being taken from the war chest balance and each contributor being eligible to a membership certificate. The probable liquidation of the war chest this year makes funds for the Red Cross no longer available so it was necessary to conduct the drive.

In a statement issued today, the Red Cross officers said that it was planned to put into operation some form of nursing service in this community. The statement says:

"At recent meetings of the board of trustees of the Red Cross careful consideration has been given to the subject of future activities for the organization.

"The probable liquidation of the war chest will bring to an end the main source of financial support to the Red Cross that has existed during the war and up to the present time.

"However, interest in its work, sustained by its wonderful record during and after the war, has so fixed public sentiment in its favor, that many of the organization in a more earnest and active form than existed before the war seems to meet with general approbation.

"It is well known that in a great many communities the Red Cross activities have been extended to all branches of public welfare work, but the consensus of opinion of the officials of the Licking county chapter is that while always ready for any sudden public emergency, such as great disasters, especially in this country and other emergencies, which arise unexpectedly, the red definite work to be undertaken by the Red Cross in Licking county at this time will be to undertake the establishment of public health nurses to assist in the beginning of this same work by our local municipal and county government under the Hughes bill. There has arisen a certain amount of doubt as to whether the Hughes bill actually will have effect on account of the effort made in the legislature to repeal it or to amend its provisions as to make it practically inoperative, but the feeling seems to be locally that a matter of this kind is not only desired but very much needed, if Newark and Licking county are to keep pace with the smaller cities and counties throughout the state and nation.

"Therefore looking toward this work as the main undertaking of the Licking County chapter for the present year, and to provide an organization meeting would be held some time next week.

FINISH 2 WELLS HERE LAST MONTH

Licking County Brings In Two Wells With a Daily Production of 210 Barrels.

A summary of the Central Ohio field for December shows that Licking county had two oil completions, with an average production of 210 barrels. There were no dry holes drilled and no gas wells. Runs are up on six wells and five are drilling, making a total of 11 wells in operation.

GETS 10-BARREL WELL.
The Ohio City Gas company got a natural flow of 10 barrels in the first 24 hours at the No. 2 Kresger well which came in last Wednesday. The well is making about 45 now but will be established. It is located near Gratiot, Hopewell township.

GETS DRY HOLE.
The Sun Oil company on its No. 2 Lampton in Licking county, got a dry hole.

RACE HORSE MEN DISCUSS PLAN

Will Seek to Establish Cinder Track For Winter Training of Horses at Moundbuilders Park.

A meeting of all those interested in a cinder track around the mounds in Moundbuilders' park will be held at Paul Bowen's gym in North Fourth street tonight at 8 o'clock. A number of horsemen, city and county officials, together with officials of the Licking County Agricultural society, have promised to be present.

The county fair board directors will be asked to grade around the mounds for a width of 14 or 16 feet and the roadway would then be packed with cinders and rolled, and used only for the training of race horses in the winter season. It would be the only track of its kind in this part of the country and would attract horsemen here to train during the winter, from states all over the union.

The cinder track would cost approximately \$1,000 and the meeting tonight is to devise a way to raise the necessary funds. It has been suggested that possibly twenty men could be interested who would contribute \$50 each towards the project and \$400 has been already subscribed.

A meeting of the fair board directors is to be held next Saturday morning at 10 o'clock at which time it will be decided whether or not they will lease the grounds to either George M. Fenberg or Emmet Deffenbaugh of Buckeye Lake Park for a summer resort. The directors are divided on the proposition of leasing and final action will be taken.

CALIFORNIA GOVERNOR WANTS FIGHT PREVENTED

San Diego, Calif., Jan. 12.—Little promoting of the proposed Jack Dempsey-George Carpentier boxing match for the world's heavyweight championship has been done in California, said James W. Coffroth who offered a purse of \$400,000 for the bout, in commenting today upon opposition of Governor William W. Stephens of California, to staging the meeting at Tia Juana, Lower California.

Coffroth said he was "not greatly concerned" over the announcement last night of gubernatorial opposition.

"I have been up against the same thing practically every time I have promoted a prize fight in the last 15 or 20 years," he said. "As for the fight being promoted in California, that is wrong. The work of promotion has gone on in almost all other parts of the world but little of it has been done in California."

Governor Stephens said that he would feel it necessary to request the federal government through control of the international border, to prevent the contest being held.

BOSTON TO 'FRISCO
Boston, Jan. 12.—A steamship service from this port to San Francisco by way of the Panama canal will be inaugurated about March 1, with the sailing of the steamer, Juneau, the New England Maritime Corporation announced today. Six vessels will maintain the service with monthly sailings.

While in Canton two months ago, Mrs. Allen relates, her life was in danger when a Chinese mob set out to burn and destroy Japanese merchandise in the city. A squad of American sailors rescued her from the path of the mob.

WORLD ALMANAC IS FULL OF INFORMATION

Among the latest books, but also among the first books of the new year, and in any event an up-to-the-minute book the World Almanac for 1920 has been published. According to the impartial judgment of those concerned in its preparation and publication, it is the greatest ever. But any latest World Almanac is that. Ask the oldest reader. He knows.

Matters as reasonable as the league of nations and as unreasonable as the prohibition amendment are treated at length in this almanac, along with the income taxes, the recorded weather, the election results, the chronology and death roll of 1919 and more matters besides than can be indicated outside of the book's own index.

Do you want to arrange a trip across America, hitting all the high spots? Here are ten pages of altitudes in the United States, not counting New York skyscrapers.

Do you want to know how large a company you burn up gasoline and highways? Here is a census of motors in New York and a count of auto licenses in all the states.

Do you want to abuse the United States senate by its Christian—save the mark—names? Here are the rolls of the 66th congress in full.

Do you want to know almost anything in sport, politics, trade, industry, religion, government, historical mile stones, navies, armies, powers, kings, presidents and such? Here are the facts and the figures, so far as possible official.

Some one speaking of Thomas Babington Macaulay, remarked on an occasion that he possessed more information than the needs of society required. The intent behind the World Almanac, obviously, is to keep well abreast with these needs. It is short of detail only on those affairs which will come to a head just in time for the 1921 book.

The World Almanac is published by the New York World. Price 50 cents postpaid.

HALLADAY CAR MAKES GOOD TIME THRU SNOW

A letter received by the local office of the Halladay Motors corporation from Attica, where the factory is located, stated that a Halladay car driven from Attica to Akron, a distance of 80 miles was made in five and one half hours. This fact is all the more remarkable when it is considered that the journey was made through large drifts of snow, and the car had to make its own track.

W. G. Schottel of the Schottel Machine company of Columbus has been given the contract for the new machinery to be placed in the new factory in East Newark as soon as the building is erected.

WHAT OHIO FOLKS SAY

Minerva, Ohio:—"I was suffering most severely from a pain in my back. Thinking that it came from the kidneys I got a bottle of a well-known kidney medicine, and used it with apparent relief, but soon the pain began again. Then I got a bottle of Dr. Pierce's Anuric Tablets and took them. In the box I found literature saying the Specialists at Dr. Pierce's Invalids' Hotel would diagnose a case free, or something to that effect, so I wrote immediately and learned from them that it was rheumatism (due to uric acid in my system). Instead of kidney trouble, I followed their advice and between three and four weeks had relief. I know, too, from the experience of others with whom I am acquainted that they, also, have been benefited by Dr. Pierce's medicine."—HARRY E. BUTTON, Minerva, Ohio.

Anuric always benefits and often cures the cause of kidney disease, as well as rheumatism and gout. Sold by druggists, or sent on order to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., or 10 cents for trial package.

Sandusky, Ohio:—"I have taken Dr. Pierce's Anuric and found it very good for kidney ailments and bladder weakness. This Anuric is all that is claimed for it, and I can speak very highly of it as a medicine for the above ailments."—Z. B. RICKARD, 1111 N. Depot St.

Fremont, Ohio:—"I can highly recommend Dr. Pierce's Pleasant Pellets to any one suffering with sluggish liver and constipation. I used to be subject to this condition and I found the 'Pleasant Pellets' to give better satisfaction and results than any other medicine I ever took. They are mild and easy on the stomach."—Mrs. Joe Young, 521 May St., N. W.

Why Newly Discovered Necessity Should be in Every Home

Newly Discovered Health Necessity—"Internal Hygiene"—Explained

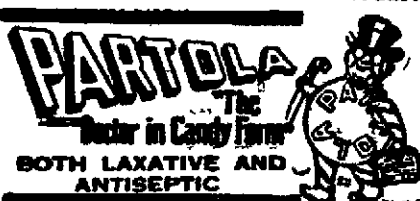

Hygiene—the preservation of health—has long been practiced with respect to teeth, mouth and throat. Antiseptic and germicide pastes, powders and liquids are used by all careful people.

If germs in the mouth cause tooth decay and other ailments how much more freely will they breed inside the body—in the intestinal organs—where they are hidden and can ply their evil workings unseen and unheeded?

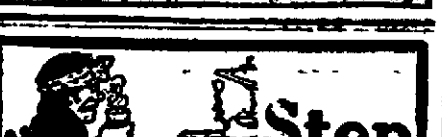

For the purpose of providing a laxative of pleasant taste, mild and thorough action which, at the same time, would tend to sterilize and disinfect the digestive tract and help provide protection against the germs which breed in the intestines, Partola was invented.

Because Partola has this double purpose and comes in the form of delicious, palatable peppermint lozenges, it is not to be confused with ordinary old-fashioned laxatives. Remember—there is nothing "just the same" or "just as good" as Partola.

All good druggists sell Partola candies in 25c, 50c and \$1.00 boxes. Get yours from your druggist today.

"KREMOLA" is a scientifically medicated cream that cures the skin of all blemishes, freckles, redness, itching, and dryness. It is the most perfect skin treatment ever devised. Get it from your druggist today.

Y. W. C. A. CALLS BIG CONVENTION

2,000 Women Expected to Gather in Cleveland the Week of April 13-20, 1920, for National Convention.

MEETING POSTPONED TWO YEARS BY WAR

Delegates Will Discuss New Membership Basis for Students and Question of Future Support for Work. Many Other Things.

The Young Women's Christian Association of the United States of America will meet in national convention in Cleveland, O., the week of April 13 to 20, having postponed the convention from the spring of 1918 in order to comply with a government request that expense and travel be reduced to a minimum during the war.

The department on conventions and conferences of the National Y. W. C. A., of which Mrs. Harry Emerson Fosdick is chairman, estimates an attendance of 2,000 women, representing all departments of Y. W. C. A. work—board members, secretaries, students, club girls, Girl Reserves, girls from Industrial Service Centers, women from the International Institutes for foreign born women, members from city, town and country Associations.

Each Association in the United States will be entitled to one voting delegate for every one hundred voting members in the Association.

Two of the most important questions which will come up before the convention will be the membership basis and the question of support. Of old business to be considered the most important question will be the membership basis for student associations, the granting of charter membership privilege to the Chicago Young Women's Christian Association and a recommendation providing an increase in membership of the National Board of the Association will also be presented.

Rev. Charles W. Gilkey, pastor of Hyde Park Baptist Church, Chicago, will give a series of morning addresses during the convention week. Dr. Robert E. Speer, secretary to the Foreign Mission Board of the Presbyterian Church, North, will also give an address. Mrs. Speer is chairman of the National Board of the Y. W. C. A.

The convention will be in session morning and evening, the afternoon being given over to sectional meetings held in various churches. Attendance at these meetings will be determined by group membership and also by activities.

Mrs. W. P. Harford of Omaha, Neb., will preside at the opening session, having been elected as president at the last convention of the Young Women's Christian Association, held in Los Angeles in 1915.

The committee on business to come before the convention has for its chairwoman Mrs. John French and includes among its members Mrs. John D. Rockefeller, Jr., Miss Eliza Butler, sister of Nicholas Murray Butler, president of Columbia University; Miss Martha McCook, Miss Mabel Cratty, general secretary for the National Board of the Y. W. C. A., and Mrs. William Adams Brown, all of New York city.

TOWN GIRLS TO HAVE Y. W. C. A.

Association Maintains 52 Town Secretaries—Wants to Expand Work at Once.

"During the war girls all over the world had their first lesson in nation wide and world wide thinking," says Miss Mabel Head, director of Town and Country Work for the National Y. W. C. A.

"Girls learned something of the inspiration of working with hundreds and hundreds of other girls, unselfishly and unflinchingly, through Red Cross work. Now the Y. W. C. A. through its world wide program of service for women, is planning to expand its work so that girls all over the world, and particularly in smaller communities, will not lose this experience."

"Citizenship forums are being organized for girls in small communities, where girls may come together to learn more about their country and their responsibility to it and as citizens of the world."

"Reading courses have been planned at National Headquarters in New York so that a girl in any community may carry on a course of study, either by herself or with other girls, on a wide variety of subjects."

"The Y. W. C. A. has at present thirty-nine secretaries doing county work. This means that they travel about from one community to another helping girls to plan out social, recreational, educational and religious activities for themselves and organizing them to carry on these activities. These secretaries work with the county agents of the Department of Agriculture in carrying on home economics work. They help plan pageants, arrange benefits, assist the girls in going to Y. W. C. A. summer conferences, and help plan all sorts of social good times for the community."

Congress has been so slow in passing important measures it feels there should be a great hurry in signing them.—Milwaukee Journal.

MARKED EPOCH IN INDUSTRY

Experiences of Years of Warfare Should Have Effect on Coal Mining in This Country.

The inventory of the nation's resources that the war made necessary brought to light many new facts about coal mining which will be of lasting value to the industry and to the public. As long as the war lasted these incidental lessons were lost sight of under the pressure of meeting the emergency created by the shortage of fuels, but with the return of peace the experience gained during the war is being gathered together in a series of reports on the industry, the first of which, "Coal in 1917," by C. E. Lester, has been published by the United States geological survey, department of the Interior.

The period from 1914 through 1917 and 1918 and into 1919 may be regarded as a distinct epoch in the coal industry, of which the year 1917 represented only one section, but a section which, if not the most remarkable for its achievements, was at once the most chaotic and the most momentous in the history of the industry.

In response to the unprecedented demand the bituminous mines produced 551,700,503 tons, or nearly 10 per cent more than the output of the year before. The anthracite output was 90,611,811 net tons, an increase over 1916 of 13.7 per cent. The total output of both hard and soft coal was thus over 630,000,000 tons.

This record output was accomplished by a labor force of 603,143 men in the bituminous and 154,174 in the anthracite mines. In spite of the draft the number of workers in the bituminous industry was greater in 1917 than in 1916.

UNCLE SAM'S GAME RESERVE

Island of Afognak, on South Coast of Alaska, Peculiarly Adapted for the Purpose.

One of the most picturesquely interesting parts of our national domain is a large island off the south coast of Alaska. It is called Afognak and is about 65 miles long by 40 in width, with a very irregular shore line and deeply indented by bays.

It is the property of the government, and in 1892 was set aside by President Harrison as a game and fish reserve. The important purpose that it serves is that of a preserve for salmon, all the finest varieties of which run up its stream in great numbers at the breeding season to spawn.

Afognak is a mountainous island, of volcanic origin, its loftiest peak rising to an elevation of 1,300 feet. In the interior are a number of large lakes, which are the breeding grounds of the salmon. One of these, Letnik lake, is seven miles long, and on its shore is located a big government fish hatchery.

In the days of long ago, before the United States bought Alaska, the salmon fishery of Afognak was operated by the Russian-American company, which established on the island a colony of its superannuated and pensioned employees. These were Aleuts, whose descendants today compose the native population, somewhat more than 400, though their blood is much mixed.

Soldiers and Bananas Growing.

The New South Wales government has not been long in providing its returning soldiers with work. One of the enterprises undertaken with this object is the cultivation of bananas on a large scale. There is no fruit crop that yields such a quick return as the banana and in the present flourishing state of the market no better undertaking could have been selected, given the right men. It is not a work for the lazy. But among the demobilized troops are plenty of men who are young, tough and teachable. Four hundred acres have been taken as a beginning and each settler has 12 months' probation before a black is entrusted to him. The sum of \$625 is advanced to each for implements, stock, and house-building material.

The soldiers have already started and enjoy their rough life in the hills. The experienced planter, Mr. C. Rose, who is in charge, sees nothing but success ahead in reward for their efforts.

Prickly Pear Proving Pest.

Australia is suffering from a prickly pear pest, which takes advantage of the rivers as a means of spreading. Shoots break off from the parent plant growing along a stream and the part is carried downstream to found a new colony. Thousands of acres are being ruined yearly owing to the ravages of this plant, and no means have been discovered of stopping its march. Rolling, spraying and poisons have proved ineffectual, and it is hoped that some scientist may find some commercial use for the plant.

Indian Women Progressing.

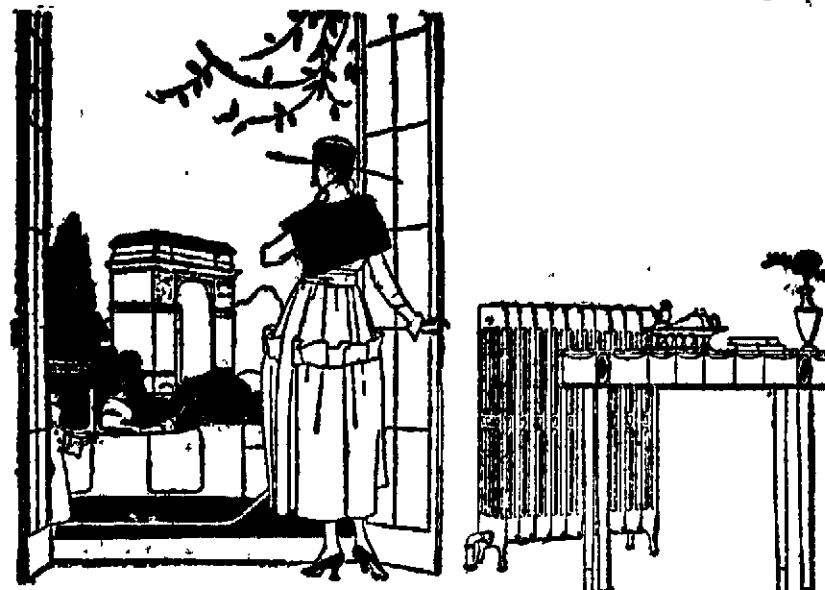

Oklahoma Indian girls are as much interested in the canning campaign as their paleface sisters. In Beckham county, Okla., they attend all the meetings held by the home demonstration agent, and this year made an excellent booth exhibit of the fruit and vegetables they had canned and dried. One Indian woman also exhibited 100 chickens of her own raising.

London's Housing Problem.

The London housing board has inspected 2,000 houses that may be converted into flats. Of these 1,000 have been approved and work is to be commenced immediately. Work has also been begun on 8,000 houses.

Carelessness and failure are twins.

CORTO - the Radiator Classic

DESIGNED by Louis Courtot. For more than 200 years his people of the Jura, France, have lived in a world of charm, creating and producing artistic things. With inborn talent, this family of artisans in metal seek ever to refine the common articles of the household with graceful forms or surfaces which enrich them with the genius of art.

Wherever elegance of proportion and refined lines are demanded to fit architecturally-chaste surroundings, this radiator classic, the CORTO, lends unusual distinction.

30% less space. 25% less weight

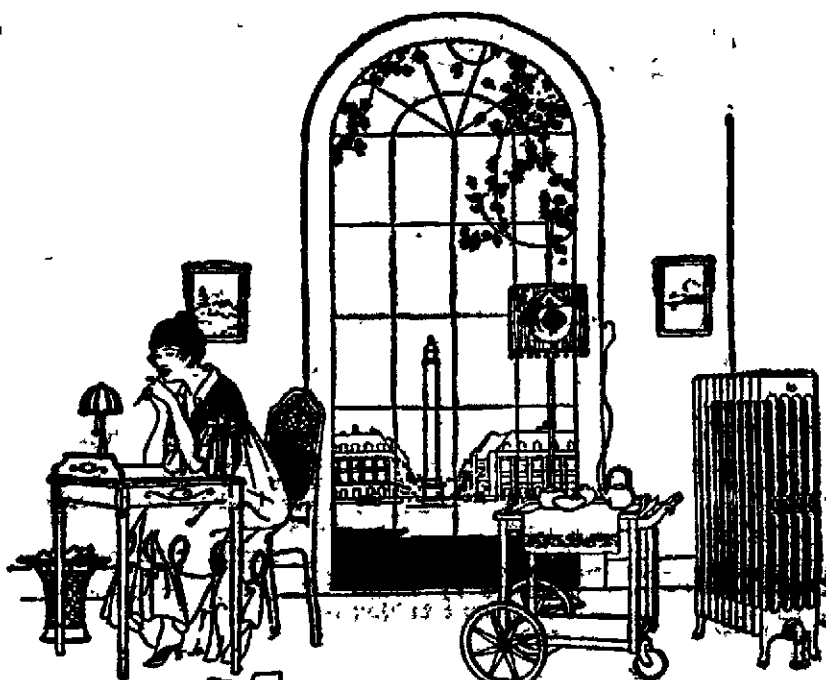

To those with whom utility is paramount, it need only be said that the CORTO, with its light, graceful tubes occupies 30% less floor space than any other type of radiator. The refinements reduce the weight one-quarter. There is far quicker circulation and venting. Utmost comfort is the result.

Our service obligation

We wish to give assurance that this new product will be attended by the same prompt and thorough service which has accompanied our goods in the past.

Inquiries cordially welcome

We are receiving many orders from home-lovers for replacement of their present radiators. It will interest you to see the dainty Parisian catalog, "CORTO, the Radiator Classic." Inquiries cordially welcomed

SHALL I INVEST IN MY COMMUNITY?

BY C. HENRY.

"I am a good citizen only when I have discharged my full duty to my family, my community and my country. I have my place to fill in each and cannot fail any one of these without being a traitor to myself. I am a part of each, and own my proportionate share, and have a very definite responsibility in each. When I fail to properly support any one of these, I am failing them all. I may fail in active interest or active support."

"I may become so engrossed in dollar grubbing that I lose sight of a dollar's true value. A dollar merely represents power to purchase; a dollar never used is of no value to me whatsoever. I may spend all my dollars for pleasure. I may put all of them into selfish investments and become stingy and mean in the doing. I may confine all my spending to my own home, only giving the community what the law demands in taxes. But if I am to be true to myself, my family, and my neighbors I must invest some part of my dollars, as well as some part of my time in my community."

"I receive a dollar for less than a half bushel of wheat, for three pecks of corn, for a pound and a half of butter, for seven pounds of pork, or for less than a pound and a half of wool. My annual membership dues in the Licking County Farm Bureau are a dollar. I make no other investments during the year that brings me returns so large or so permanent."

"When I buy a membership in the Licking County Farm Bureau I am investing for myself, for my family, and for my neighbors. This investment will reap big dividends so long as Licking county exists. I may, in a measure, reap the benefits of the Farm Bureau without backing it with my money and my dollar; but do I want to be a benefactor, a humbug, or a parasite? The Farm Bureau is the community's organization, and doing a great public work I own part of that organization, whether I am paying for it or not; so do you, neighbor, are you

a good neighbor? A good citizen? Are you missing a rare privilege and shirking an imperative duty by not supporting our Farm Bureau? Are you true to yourself?

"Join the Farm Bureau and boost be a regular neighbor."

IN OHIO AND IN THE NATION.

When Governor Cox was defeated for re-election in 1914 he had put so many progressive measures on the statute books of Ohio that the special interests in Ohio were able to work up opposition to him on the part of those who were uninformed concerning the effect of the legislation. Yet Republican successors did not dare to repeal a single law passed during the first Cox administration, and after a two-year interlude they called the governor back to his former post to carry on his great work. So it is with the Republican congress elected a year ago. It has not dared to repeal a single measure passed by the Democratic congress that preceded it and it has offered nothing toward solution of the nation's difficulties in these perilous times of reconstruction.

Therefore it is no more than natural that the Democratic congress be placed into power again at the first opportunity because the public now realizes that it will not shirk a duty and that it will act in the interest of all of the people all of the time and not shelve public need and public safety for political expediency and partisan politics.

President Wilson told congress in a message months ago that the income tax provisions need revision but the stolid congress has done nothing, preferring to allow provisions no longer necessary to remain and charge them to the party which framed the bill, in the hope of influencing votes in the coming election.

The Old Guard is using the old game to head off the Wood movement by using favorite sons to keep the general from enough first choice votes to nominate. Then in convention the party leaders will indicate the nominee. But will the progressive band swallow the medicine.

The Republican leadership will not be able to send this fall to the work ingmen of the nation through their employers that unless the Republican party is successful, the company will close its plants. It worked in McKinley's day, in Roosevelt's and in Taft's.

The revenue tax are one-third lower this year for people of moderate income. They were so fixed in a Democratic congress. Yet Republicans are already endeavoring to take credit for lightening the tax burden.

TEACHERS' SALARIES.

(Hamilton News.)
That the average annual salary of the 1861 teachers employed in the colleges of Ohio is \$1145 or \$28 a week is shown by the latest figures just published in the report of the state superintendent of public instruction for 1918. Forty colleges in the state are reported, the figures being furnished by the office of the various presidents. State and municipal institutions are somewhat in the lead of endowed and denominational colleges, the average salary in the public universities being \$1740 as against \$1240 in the privately supported ones. Since these figures were submitted no considerable salary increases have been made in any college of the state except Oberlin where the scale has been advanced approximately 50 per cent.

Comparison of these figures with averages published in connection with the numerous strikes for enhanced pay documents now being conducted by universities outside Ohio indicates that all that is being said elsewhere of the superior incomes of illiterate foreign laborers to those of the men entrusted with the higher education of our sons and daughters is true here. The only difference is that the average salary of the Ohio professor is still lower.

Youngman—"I tell you, that kid of mine is always up to something. He's as good as a play." Wiggan—"Well, I don't hear any loud cries for the author."

ANOTHER REPUBLICAN ISSUE.

(Philadelphia Record)

We see another Republican issue for the Presidential campaign in the announcement by Congressman Mann that he will oppose the summary denial of Victor Berger's right to a seat in the house. Of course, Berger has no more right than he had a few weeks ago when the house refused to seat him. He has been elected since then, but it was not for want of an election that he was denied a seat. The action of the house in the former session was based upon the good and sufficient reason that he had been convicted under the Espionage law and is out on bail. There is precisely the same ground for rejecting him now.

But Mr. Mann, a prominent Republican, and formerly floor leader, is going to champion the honor of the house to seat the whole anarchist vote for the Republican ticket. Mann has no principles except to fight the Democratic party. He is against the flag, even if the Democrats are for it. He voted for the resolutions, and four years ago, which would have denied the right of Americans to travel upon the high seas. A Democratic President as he did the right and proposed to defend it, and a majority of the Republicans with Mann at their head, voted to lie down under German bullying and advise Americans to stay at home.

The Republican party is out for the votes, and it does not care how it gets them. It made a deal several years ago with the Mormons, seated Smoot, and secured the Mormon vote. It is now out for the German vote and the Socialist vote and the anarchist and communist vote. Mr. Knox made a deal for the German vote several months ago when he denounced the peace treaty on the ground that it was oppressive to Germany. His speech thrilled Berlin. The Germans have been hoping to separate the allies, and in the action of the senate on the peace treaty they think they see the beginning of the alienation. They have been expecting America to save them from England and France. President Wilson was a disappointment to them, and they now hope for the success of Senator Lodge, who thinks he sees in the defeat of the peace treaty, or its ratification with reservations which nullify it, a chance to get the votes of all German sympathizers. The honor of the United States is to be sacrificed, and the peace of the world endangered, in order to get for the Republican ticket the votes of the German-American alliance.

Mr. Mann is going further. A Democratic department of justice has rounded up about 5,500 communists and anarchists. A great many more are at large, and many of them will vote in November. The raid on the "reds" has turned the idea into Mann's head. The Democratic party deports the anarchists; the Republican party is to welcome them to congress and get their votes for the presidential candidate. Hence Mr. Mann will champion the right of a man convicted of disloyalty to a seat in the house of representatives. The Republican party simply has to get votes.

WOMEN IN POLITICS.

(Cleveland Plain Dealer.)

Sex is out of place in politics. Women have been asking for suffrage, not as women but as citizens. They have sought not concession but justice. The distinction is worth keeping in mind.

Republican women from fourteen states have been in session in Chicago, talking and politics and framing suggestions. Among other things they ask is that the national committee of their party be doubled in size, each state to be represented by one man and one woman. They also urge the same policy in reference to other party committees, state and local.

The suggestion is out of harmony with the principle underlying suffrage, that men and women shall be treated as equal in the political arena; that men shall not be treated as men and women as women but both as citizens without distinction of sex. If the Republican women want the national committee doubled in membership the suggestion may be worth considering. Some expert like Mr. Hays will say as to that—but to stipulate that from each state shall be chosen one woman and one man is contrary to the theory of equal suffrage; for under such an arrangement each group would be represented on the committee by a member of its own sex. The suggestion can scarcely be interpreted as having any other purpose.

Ninety-two will give the women of America their first opportunity to

Did You Know
That naphtha is derived from the Persian word "nafata," meaning to exude? It was originally applied to an inflammable liquid hydro-carbon which exudes from the soil in certain parts of Persia. The term is now used, however, to designate an almost identical fluid that issues from the ground in many parts of the world, known as petroleum or rock-oil, and it also is applied to other liquids which resemble true naphtha in little else than in their volatility and inflammability. In composition naphtha consists mainly of hydrocarbon, having the same proportion of carbon to hydrogen as indiarubber.

NO TRAMPS NOW.
(Ohio State Journal.)
There seem to be no tramps any more. It is months and months since an able-bodied man came to the back door and asked for something to eat. The nearest approach to a beggar who has appeared in the neighborhood for a year is provided by the poor old tottering man who comes around occasionally with inferior lead pencils and questionable shoestrings to sell at a good round price. He at least thinks he is earning his living and deserves respect accordingly. But the real, old-fashioned tramp has disappeared. There is work for everybody who will do it and those who are inclined that way evidently realize that, with the demand for labor as it is, begging for bread would not strike a responsive chord in the heart of the person possessed of it. Perhaps prohibition has helped some, perhaps the charities are better organized and efficient, perhaps the police are somewhat more alert, but probably the insistent need of workers in this land of opportunity is at the bottom of this blessed trampless conditions. May it long endure!

There are many reasons why Japan has no desire to quarrel with the United States, and not the least of them is the fact that in the first ten months of the calendar year we imported \$194,000,000 of raw silk from that country.—San Francisco Chronicle.

Married Strangers

A powerful story dealing with a problem being worked out in thousands of American homes to-day—that of the husband and wife who find they grow apart while the man goes off to war.

LXIX.—Avoiding a Serious Decision.

Bennett released Keitha with a suddenness that almost upset her balance. Catching herself by one outflung arm on the table, she turned to look at him curiously.

A mark of incredulity had slipped over her face. He lit a cigarette carelessly, stroking to the fireplace to toss aside a match.

"Is that what you wish?" he countered her suggestion in a rapid, calling off of their matrimonial contract.

Keitha shrugged.

"You seem so dissatisfied. I thought it might be a welcome suggestion."

He took several swift steps till he stood directly in front of her and his intense gaze drew her unwilling eyes.

"Is it a welcome thought to you?" he demanded.

Keitha's lips fell.

"I want to be fair," she stammered.

"That is not answering me," he said quietly.

Keitha took a deep breath.

"Well, yes," she admitted—and knew that she was not telling the truth.

Bennett made no answer but his eyes did not waver. She felt as if he were searching her soul and the tell-tale color came slowly into her face.

When the silence had been intolerable she raised her eyes defiantly, determined to put an end to it somehow.

To her dismay Bennett was smiling.

"You've told me what I wanted to find out," he said, and Keitha knew that he did not refer to her words.

She realized that the game was his, but she managed to accept her defeat gracefully.

"Really," she drawled, reaching out for her wraps which lay across a chair. "Then, if you are perfectly satisfied, we might proceed to the Arnold. We're already unparagonably late."

"Quite a good idea," he returned coolly, taking the wraps from her to lay it around her shoulders.

Before she realized his intention, he had bent down and pressed his lips against her white shoulders.

Keitha sprang away from him, her hand instinctively to the spot he had kissed. The wrap fell to the floor between them.

"Pardon," he shrugged lightly. "I merely wanted to see if your shoulder was so icily marble as it looked."

He bent down and retrieved the wrap and held it out for her, but Keitha turned to the window as her eyes followed unseeing the flashing lights of the can Francisco streets, and her profile, presented to Bennett, might have been carved from the marble to which he had likened her.

He smoked with equally elaborate indifference, but under the shadow of his trim, his intent gaze was focussed upon her and she was vividly conscious of it. She felt a curious sense of being watched, as if by a pair of old familiar moorings. Her mental processes were without order or logic.

In the brief months since her husband's return from France, she had swung from fear to resentment, from resentment to coquetry, from coquetry to dignity—and she was still swinging. It seemed impossible to be her real self.

The car turned in the drive that led to the Arnold's bungalow type of mansion. Bennett threw away his cigarette with a sigh that sounded like relief.

"It will seem good to see Betty again. She's terrifically human."

NO TRAMPS NOW.

(Ohio State Journal.)
There seem to be no tramps any more. It is months and months since an able-bodied man came to the back door and asked for something to eat. The nearest approach to a beggar who has appeared in the neighborhood for a year is provided by the poor old tottering man who comes around occasionally with inferior lead pencils and questionable shoestrings to sell at a good round price. He at least thinks he is earning his living and deserves respect accordingly. But the real, old-fashioned tramp has disappeared. There is work for everybody who will do it and those who are inclined that way evidently realize that, with the demand for labor as it is, begging for bread would not strike a responsive chord in the heart of the person possessed of it. Perhaps prohibition has helped some, perhaps the charities are better organized and efficient, perhaps the police are somewhat more alert, but probably the insistent need of workers in this land of opportunity is at the bottom of this blessed trampless conditions. May it long endure!

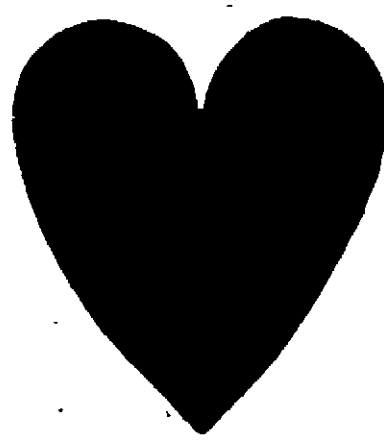

"To him that hath it shall be given," quoted the Wise Guy. "But it's the things we don't get that sometimes make us happiest," replied the Simple Mug.

The new Labor party might add to its popularity among outsiders by adopting the slogan, "Let's all quit talking and go to work!"—Topeka State Journal.

The Silent Circle of The King's Daughters will meet at the home of Mrs. Guy Billingslea, 104 North Fourth street Tuesday.

The White Carnation Hive of Maecenas will entertain with a dance at assembly hall, January 20. The Wyeth-Rosebraugh orchestra will furnish the dance program.

On Thursday afternoon the White Carnation Guard club met at the home of Mrs. Mabel Fullard and enjoyed a delightful time. Mrs. Fletcher, Mrs. East and Miss Glassmeier were the lucky contestants. A vocal duet rendered by Mrs. East and Miss Glassmeier was greatly enjoyed. Refreshments were served the members and their guests Mrs. Wintermute and Mrs. Grace Hendrick. The club will meet with Mrs. Rose Fletcher, 430 West Main street Thursday, January 15th.

Mrs. Alfred Oberfield will entertain the members of the G. A. B. club at her home in South Sixth street Tuesday evening.

Mrs. Edgar English entertained Friday afternoon with three tables of bridge at her home in Ninth street. The trophies were awarded to Mrs. Fred Boyer and Mrs. Frank Christian and luncheon was served.

The Catholic Ladies of Columbia will hold their meeting Tuesday evening at 7:30 o'clock at the Knights of Columbus hall in West Main street.

The Home Missionary Society of the First M. E. church will meet at the home of Mrs. C. L. H. Long in 80 Granville street Thursday afternoon.

Milady's Boudoir

Tooth Care.

There are usually small spaces between the teeth in our mouths and in these crevices are small particles of food which should, for the health and beauty of the teeth, be kept removed as often as possible. If they are not promptly removed the heat and moisture of the mouth acting on them, promotes their decomposition and set up an acid fermentation that causes the decay of the enamel, and finally of the teeth themselves.

When the teeth are decayed this danger is even greater and the result is offensive gases, fevers of the breath, poison of the blood and grave injury to the nervous and digestive systems. When possible dental floss should be used after each meal. The wooden toothpick is undesirable as tiny splinters are often left in the gums.

When the teeth are of irregular formation, it often happens that the brush does not reach all of the surfaces. In this event they should have treatment once twice a week with a soft orange wood stick which, dipped in tooth powder or smeared with tooth paste, is used as a cleaner and polisher.

This not only keeps the teeth from becoming yellow but it discourages the growth and development of bacteria, and prevents the catarrhal irritation that sometimes sets up about the margins of the gums.

In addition to this treatment the mouth should be rinsed each night with some mild, antiseptic solution. Tincture of orris, rose water and alcohol in equal parts, flavored with a drop of bitter almond, makes a very agreeable mouth wash.

Our Boys and Girls

Breathing exercises, sing song methods of learning school lessons, recitations in rhyme or with the whispered voice at first and loud afterwards, are all very helpful for a stuttering child. When ever any signs of trouble present themselves, three or four deep breathes should be taken, practice with the troublesome vowels and consonants should be carried out, and single powerful expirations should be made before any syllable or word be pronounced. Every mistake should be at once carefully and slowly corrected, by a proper repetition. Perseverance in these exercises will go a long way in eradicating the defect. In the young of understanding, co-operation on their part usually means a fairly complete cure.

Parents would never think of leaving a physical deformity without care and attention and yet they think stuttering cannot be helped or cured and

Elvira Amazar, the beautiful soprano, who recently caused the arrest in Chicago of George Baklanoff the famous baritone of the Chicago Opera Company, charging him with bringing her to America five years ago although he had a wife and seven children living in Russia, has herself been arrested on a similar warrant. Secretary of Labor Wilson will investigate the cases and if the evidence warrants both will be deported.

Ford

THE UNIVERSAL CAR

Don't Depend on Spring Deliveries

Spring deliveries of Ford cars have never been certain, and they should not be depended upon. Demand has always been greater for Ford cars than the supply or production. So, if you would be sure of having a Ford car, buy it now while deliveries are possible. Don't wait—even next month is an uncertainty.

Only a limited, specified number of cars has been allotted to this territory. That allotment cannot be increased, because the demand all over the country is greater than the supply or production. Get your order in now, and you will be one of those who is sure of a Ford car out of our allotment.

It's first come—first served. All orders are filled in rotation. So, if you would be forehanded if you would be certain of having a Ford car when you want it—then you will buy a Ford car now. A signed order with us is your protection. It is the result of wisdom of looking ahead.

If you buy a Ford car now, don't think you have to "store" it. The Ford is a car made to serve its owner for business or pleasure throughout the entire year. Ford owners have long since come to recognize the fact. It is no longer popular to "lay-up" your car for the winter. Buy a Ford car now, and use it now.

A GENUINE SERVICE TO YOU

How Can You Expect people to know that you are in business unless you Advertise?

THE successful farmer raises bigger crops and cuts down costs by investment in labor-saving machinery.

Good prices for the farmer's crops encourage new investment, more production and greater prosperity.

But the success of agriculture depends on the growth of railroads—the modern beasts of burden that haul the crops to the world's markets.

The railroads—like farms—increase their output and cut down unit costs by the constant investment of new capital.

With fair prices for the work they do, the railroads are able to attract new capital for expanding their facilities.

Rates high enough to yield a fair return will insure railroad growth, and prevent costly traffic congestion which invariably results in poorer service at higher cost.

National wealth can increase only as our railroads grow.

Poor railroad service is dear at any price. No growing country can long pay the price of inadequate transportation facilities.

This advertisement is published by the Association of Railway Executives

Those desiring information concerning the railroad situation may obtain literature by writing to The Association of Railway Executives, 41 Broadway, New York

Out of accumulated capital have arisen all the successes of industry and applied science, all the comforts and ameliorations of the common lot. Upon it the world must depend for the process of reconstruction in which all have to share.

The Greatest Question.

One of the greatest of human inconsistencies according to the sincere believers in Occultism is the almost universal belief in a happier life for a person after death and the sorrow and anguish it causes a loved one when transition occurs. They argue that a coffer at the idea that it is possible for a person who has suffered death to communicate with those still on earth.

Dean Professors Royce James Langley, Gladstone was a member and Balfour Prime Minister of England Tennyson and Sir Gilbert Murray, as well as William T. Stead. This society was formed for the purpose of investigating thoroughly all reported manifestations of occultism and as Henry Holt has said "that such a society should spend its time over trifling or unverified stories it would be ridiculous to presume."

The reports of the society claim nothing, they are not propaganda but merely the actual findings of intellectual and scientific men into a subject upon which they are unprejudiced, but among them the society's belief will find plenty of things to convince him that communication with the dead is possible and the skeptic will find num-

berous Italian medium, a world famous psychologist says: "Her manifestations and monkey-shines are mostly humbug; but, allowing for all cheating and the hideous vulgarity of her manifestations, there remains a residuum we cannot account for."

Allowing for the fact that it might be possible for a charlatan to fool the men of the mental calibre of those who compose the society, the searcher can stamp all manifestations of professional mediums as being fakes, and still not be able to win away the evidence furnished by the reports for they take in happening to persons who are above suspicion those who did not believe in a responsive return of the dead.

that he was 83 years, one month and 27 days old, instead of 17 days!

Another record in which the society vouches for the reputations of all parties concerned:

The father of Bennie Junot was visiting an elderly lady friend when the lady exclaimed suddenly: "Benny (who had died a few months previously) wants to talk to you." She then talked in the first person, repeating the words of love and comfort which might have been devised by anyone as appropriate. But the conversation mentioned his sister, who at that time was at home in a distant city, and "Benny" said: "She is now practicing her piano." (Continued on Page 7, Col. 5)

"AND SOME DAY WE'LL RUN AWAY AND GET MARRIED!"

We wonder if you, reader, ever said this to some little girl or had it said to you? Nellie and Jimmie are just like all first lovers—even as you and I. We will see each other in them. We'll laugh at them—we'll sorrow with them—we'll thrill with them because they're human—they're us! Griffith, the master, has made them so in "The Greatest Question."

"GHOSTS! CHILLUN,—OH LAWDY—OH-OH-OH!"

Uncle Zeke, Nellie and Jimmie passing the churchyard after the evening shades have fallen do see the ghost that figured in the terrible ghost story the old negro had told them a few minutes before. And you will see it, too—but you'll know the truth, which they didn't. People roar with laughter at this scene in Griffith's "The Greatest Question" and then go blocks out of their way home from the theater to avoid passing a graveyard.

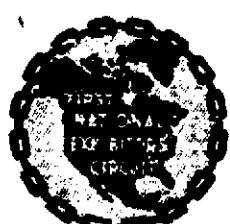

THE BRUTE AND THE CHILD —

He driven by an uncontrolled impulse—she by that age-old instinct of feminine self protection. Neither reason when impulse drives. Why does the Creator put brutes and children into the same world? And having placed them so—to struggle and suffer because of each other—has He not placed a greater compensating power at the disposal of suffering humanity? That power is "The Greatest Question."

THE MOTHER'S FAREWELL TO HER SON!

Something tells her she will never again see him. Months afterward grim tragedy overtakes him on the bleak North Sea, and half the world away the mother knows. The door of her lowly cottage opens—a great wind sweeps in and on its wings her loved son comes to reassure and comfort her. She alone greets him—"The Greatest Question" is no longer a question to her—she knows!

son, "the father left the house believing he had been the victim of a cruel joke on the part of a friend, but he telegraphed to his wife:
"Was Helen playing the piano at twenty-five minutes past eleven this morning?"
The answer came:
"She was," adding that the girl had remained home from school because of a cold.
The interest in an animated hereafter aroused by the grief of the world, has caused a flood of articles of all kinds upon the matter, some authentic and many bad. Sir Oliver Lodge's "Raymond," a report of alleged conversations with his son after the son had been killed in France, has already rivaled the sales records of the best seller of fiction. Other literature and books on occultism have sold up into the millions and mediums, both fakers and those who are sincere, are reaping fortunes. And now it is announced that David Wark Griffith has based his latest motion picture "The Greatest Question" upon the most important problem of this science. It is not propagand-

lively musical comedy star who nearly breaks up two happy families. There is also a chap by the name of Constance who plays the constabulary and plays him well. Here is a carefully chosen company who work well together and who under Mr. Capellani's direction made a merry, rollicking comedy drama out of the famous musical comedy.
The story? Why spoil perfectly good comedy situations by spilling the beans? "Oh, Boy!" is there as a motion picture! The engagement is for three days.
AT THE HARTMAN.
The Ed Wynn Carnival, headed by Ed Wynn himself, will make its initial appearance in Columbus at the Hartman theater Monday night, January 12 and the entire week thereafter, with matinees Wednesday and Saturday. This will be news of the most cheering kind for lovers of musical melange, full of frisky jazz, beguiling music, sparkling wit and pretty girls. The book and songs are from the pen and brain of the comedian himself, and B. C. Whitney is producer. For many

do, but a gripping story woven about the "residium we can't account for" of the report of the S. P. R. "The Greatest Question" will be shown at the Auditorium theater on Thursday, Friday and Saturday.

ALHAMBRA

"Oh, Boy!" as a musical comedy on the stage. We see it at the Alhambra theater as a feature motion picture. We find it as a motion picture in no way inferior to the stage production in entertainment quality. And this, be it said in high praise, for "Oh, Boy!" on the stage was a smashing success!
Mr. Albert Capellani, who as a motion picture director has climbed high and fast, directed the picture. Mr. Capellani has been turning out a notable number of successes lately. His work is distinguished by its smoothness, attention to detail, artistic finish and inspirational treatment. Creighton Hale and June Caprice, two youthful and decidedly good looking players are featured in this production, while the supporting cast deserves more than a mere word of praise. There is the veteran actor, W. H. Thompson, who as the runaway bride's father, gives a most excellent performance, and who is always so thoroughly in his part that laugh after laugh did him tribute. There is Flora Finch, who with the late John Bunny entertained so many persons. There is Zena Keefe as the

seasons the inimitable Ed has been one of the cleverest comedians of the stage and now he has come into stardom at the head of his own organization. In addition to having been the particular bright luminary of several of the biggest and most successful musical attractions, Mr. Wynn has frequently contributed to the book and lyrics of the entertainment in which he appeared.

LYRIC

The Fashionettes a musical comedy company arrived in the city yesterday and are appearing this afternoon for the first time before a Newark audience. Their engagement lasts for the coming week.

THE GRAND

Constance Binney has established herself as a star in the screen firmament by her characterization of the piquant little heroine of "Erstwhile Susan," which is to be seen at the Grand theater Monday, Tuesday and Wednesday of this week. The picture was adapted from the dramatic success of the same name in which Mrs. Fiske appeared recently and which was in turn, based on "Barnagetta," Helen R. Martin's popular Pennsylvania Dutch novel.

In addition will be shown a Sunbeam comedy entitled "The Roaming Bath Tub." This program is appearing for the first three days this week, commencing today.

TOO MUCH TOBACCO AFTER FORTY-FIVE SUICIDAL, SAYS DOCTOR

Immoderate use of tobacco after forty-five is suicidal, says Dr. Hirschfeld, eminent medical author, and other doctors agree with him. Excessive use of tobacco is bad for anyone any time, and how much you can stand can only be told after it is too late if you have used too much. Better to quit, and here Nicotol will help you. Get a few Nicotol tablets from any druggist and let them drive the craving from you. If you want to resume after seeing how much better you feel without tobacco you can do so any time. Nicotol is sold under a positive money-back guarantee. It costs you little to quit and nothing if Nicotol fails.
Note: If you know you are smoking too much let Nicotol help you reduce the quantity and show you how easy it is to quit altogether. Ask your druggist about the success of Nicotol. He knows and can be trusted to tell you the truth.—Advt.

WOMAN MANAGES NOVELIST'S RANCH

Mrs. Eliza Shephard.

Another proof of woman's capability to the vote is furnished by Mrs. Eliza Shephard, who is superintendent and general manager of the Jack London ranch in the Valley of the Moon, Glen Ellen, California. The Sonoma county ranch is one of the largest of its kind in the west and Mrs. Shephard is one of the Golden State's most successful ranchers.

11 HENS IDLE; NOW LAY 221 EGGS A MONTH

Mrs. Young Almost Gave Up Raising Chickens. Then She Tried This Plan.

"When I accepted your offer and tried Don Sung, I had been getting 1 or 2 eggs a week for other days. The next month, using 50 cents worth of Don Sung, my 11 hens laid 221 eggs. I almost gave up raising chickens, but now I have decided to raise as many as I can. Mrs. F. C. Young, Bellefonte, Pa."

Feed is too expensive to waste on idle hens. You can easily start your hens laying and keep them laying, even in coldest winter. To prove it, all you need do is accept our offer, as Mrs. Young did.

Give your hens Don Sung and watch results for one month. If you don't find that it pays for itself and pays you a good profit besides, tell us and your money will be promptly refunded.

Don Sung works directly on the egg-laying organs, and is also a splendid tonic. It is easily given in the feed, improves the hen's health, makes her more active in any weather, and starts her laying.

Try Don Sung for 30 days and if it doesn't get you the eggs, no matter how cold or wet the weather, your money will be refunded by return mail. Get Don Sung from your druggist or poultry remedy dealer or send 50 cents for a package by mail prepaid. Burrell-Dugger Co., 254 Columbia Bldg., Indianapolis, Ind.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work. People afflicted with bad breath find quick relief through taking them.

Dr. Edwards' Olive Tablets are a vegetable compound mixed with olive oil. They act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood, and purifying the entire system. They do what calomel does, without any of the bad after effects. Take one or two every night for a week and note the pleasing results. Buy and try Dr. Edwards' Olive Tablets.

CHURCH STRONGER BECAUSE OF WAR

Chicago Pastor In Address At Granville Sunday Declares Hope of World Lies in Churches and Universities.

(Special to the Advocate.)

Granville, Jan. 12.—Rev. S. J. Skevington, D.D., pastor of the Belden Avenue Baptist church in Chicago, who spent the week end with his daughters, students in Denison, preached in the Baptist church Sunday both morning and evening. He said that the church is now at the Golden Gate of the continent of her opportunity; that far from having been weakened by the world-war she is stronger and better equipped today than ever before; that there are just two places on earth today where are felt the vital throbs of hope, the universities and the church; everywhere else there is pessimism. He said that love is the only redemption of the world, hatred has failed and always will fail; that if the church should fail in her mission the future would witness another world struggle compared to which the war just ended would be forgotten for mere littleness. The church, he said, does not need to be defended, it needs to be projected. His morning discourse had as text "On this rock will I build my church and all the powers of Hades shall not prevail against it."

Eleven Denison students and two faculty members have returned from the eighth quadrennial convention of the Student Volunteer movement, held in Des Moines, Iowa, during vacation at which between 7,000 and 8,000 delegates were present. The delegates were seated in the coliseum by states and Ohio was well placed with the Denison contingent well to the front. One afternoon was devoted to the needs and opportunities of the different countries, India, China, Japan, the Near East, Latin America and Africa. On another afternoon the different types of mission work, educational, evangelistic, medical, and agricultural were made the subject of separate conferences and placed before the delegates. Those who went from Denison were: Prof. F. C. Boughton, Dr. K. S. Latourette of the faculty and Misses Elsie Taylor, Dorothy Leslie, Mildred West, Ruth Welsinger, Edith May, Messrs. D. E. Owen, E. L. Exman, R. W. Abernethy, Stephen H. Lapp and T. C. Adams, who acted as delegation leader. Alumni and former students attending the convention as delegates from other institutions, assembled one day at a luncheon with Harold S. Phillips '19, now of New York City acting as toast master. Among others who spoke at this reunion, Prof. Boughton gave a talk on Greater Denison and the satisfactory way in which the work is progressing. Those interested in the proposed establishment of a life guard unit of the American Red Cross at Denison, have been invited to meet in the gymnasium Friday afternoon at 4 o'clock.

Mrs. Clara T. Brumback, Mrs. Carrie Attridge, and Miss Fannie J. Farrar of Shepherdson college, were entertained at dinner Saturday evening at the home of Prof. and Mrs. August Odebrecht.

Miss Bertha Franks of the Kirkersville schools, spent the week-end with her parents, Mr. and Mrs. C. E. Franks in Centerville street.

Mr. and Mrs. Horton Buxton of Columbus were guests over Sunday of their parents, Mr. and Mrs. Fred Buxton.

Mr. and Mrs. Perry Wilson, who have been visiting their parents, Mr. and Mrs. Frank Wilson on the Lancaster road, and other relatives and friends in the village, have left for their home in Detroit. Mrs. Wilson was formerly Miss Lora Wright.

On their return from a bobbed ride to Newark Saturday evening, eight couples of the Denison faculty repaired to the home of Dr. and Mrs. H. L. Tanner where supper was served by the hostess.

C. J. Wright will entertain the Men's Brotherhood class of the Baptist church this evening at his home in the Newark road. Those who do not drive will take the 7:30 car or bus.

The regular meeting of the Spencer Bible class will meet this evening at 7 o'clock in the Baptist church.

John R. Dyer of the industrial service department of the Y. M. C. A., visited Denison today in the effort to enlist volunteers for industrial service work in Newark, and to help in arranging co-operation between the college Y. M. C. A. and the Newark city association.

Miss Minnie Vandenberg left Saturday for Cincinnati, where she has accepted a position as head nurse at the General Hospital, her alma mater. Miss Vandenberg has been spending the last two months with her parents in North Main street since her discharge from the army, where she was enlisted with the Red Cross.

The Community federation will hold its regular monthly meeting Tuesday afternoon at 2:30 o'clock in the Community rooms, with the Mother's club in charge of the program. Prof. F. G. Betts will speak on "The Child in Our Midst." At the business session the president will call for reports of committees in charge of the recent Community Christmas celebration and other important matters will engage attention. The Community Council will assemble at 1:45.

FILES SUIT AGAINST NEWARK MEDIUM

Ella VanKirk has filed a petition in municipal court against Blanche Hartt, also known Mrs. Alpha Hartt, in which the plaintiff alleges that there is due her from the defendant the sum of \$50, which sum of money was deposited with the defendant on November 21, 1919, at her request.

The defendant is known as Madame Hartt, alleged medium, who resides in Hudson avenue. Mrs. VanKirk in her transactions with Mrs. Hartt took a receipt which read: "Received of Mrs. Ella VanKirk, \$50 deposit on valuable money to return to full when valuable is returned."

The plaintiff alleges that the alleged valuable was returned January 9 to the defendant and demand was made for payment of the \$50, which was refused by the defendant, for which sum she asks judgment. E. S. Randolph is attorney for Mrs. VanKirk.

POWDER BLAST KILLS ONE

Williamson, W. Va., Jan. 12.—The powder magazine of the Randolph mine in the suburbs of Williamson blew up this morning. James Childers, the mine foreman, who was near the magazine when it exploded, was killed and another employee was seriously hurt. The cause of the explosion has not been determined and the loss is said to be heavy. The explosion shook the town.

The defendant is known as Madame Hartt, alleged medium, who resides in Hudson avenue. Mrs. VanKirk in her transactions with Mrs. Hartt took a receipt which read: "Received of Mrs. Ella VanKirk, \$50 deposit on valuable money to return to full when valuable is returned."

The plaintiff alleges that the alleged valuable was returned January 9 to the defendant and demand was made for payment of the \$50, which was refused by the defendant, for which sum she asks judgment. E. S. Randolph is attorney for Mrs. VanKirk.

POWDER BLAST KILLS ONE.
Williamson, W. Va., Jan. 12.—The powder magazine of the Randolph mine in the suburbs of Williamson blew up this morning. James Childers, the mine foreman, who was near the magazine when it exploded, was killed and another employee was seriously hurt. The cause of the explosion has not been determined and the loss is said to be heavy. The explosion shook the town.

75 YEARS OF SERVICE

75 Years of Good Service

This year we celebrate the 75th anniversary of the founding of this bank.

For three-quarters of a century we have served the banking needs of the community.

While we have outlived a great many of our earlier depositors, we have not outgrown our usefulness but rather have increased greatly our capacity to serve and protect.

This Bank is old in years and experience but new in progressive methods and service. Are you one of the many depositors of this 75 year old Bank?
